**NADA Miami 2021 Application**  
**Artist: Betty Mulat**

Bio:

BETTY MULAT is an Ethiopian visual artist, musician, and creative director. She is the co-founder of NuZi, a Vancouver based music and event collective focused on uplifting and providing a platform for Black and brown women, trans, and non-binary folks through music initiatives that center empowerment and community within the electronic music scene. She DJs and produces electronic music under the alias, Venetta. Her brooding acid flecked productions and skilfully eclectic DJ sets run the gamut from electro breakbeats to classic dirty basslines. With a varied sonic palette, she traces an offbeat path of resonances and contrasts between styles and eras with her singular approach to selection and dextrous mixing. As DJ and producer, Mulat is committed to reclaiming the Black and brown roots of electronic dance music. Her visual art explores the social frameworks of Black identity, drawing from the African diasporic experience and celebrating Black womanhood.
